

Medical report requests

Dear Patients

Many of you request the GPs to do medical reports

Examples

- DVLA e.g. taxi/lorry driving (a form is usually given to you by post)
- adoption/fostering (a form is usually given to you by post)
- Insurance reports (we usually get the form sent to the surgery via post)
- reports to solicitors (the solicitor must write to us separately if they want a report), no verbal requests!

Etc...

Please note that this is not NHS work.

Therefore this work is **chargeable** to you at fixed prices depending on the request.

Also these take quite some time to do so they have to be fitted around our NHS work.

Some reports e.g. DVLA require you to come to see the doctor but others are reports that the doctor will do at his/her convenience.

If you require such work to be done, please ask reception regarding this and they will be able to explain the process for fitting you in or receiving your documentation.

Thankyou
