Video Grop Consultation Patient Agreement

By participating in the video group consultation (VGC) I agree that:

1. I am happy to discuss information about my health and/ or condition that relate to the session topic in a group setting. This means that my concerns and questions to the clinician will be listened to by other participants. In turn I will observe others having their own consultations, so that we can all benefit from hearing and understanding common problems and solutions.
2. I understand that I am under no obligation to share any more personal information with the group unless I choose to do so and that if I have some health concerns that I don't want to discuss in a group setting, I may ask to discuss them in a 1:1 consultation.
3. At any time, I can withdraw my consent to participate in a group and book a 1:1 consultation.
4. I will keep all information learnt about group members confidential. This includes agreeing that I will not share or record any information about other group members verbally, on social media such as Facebook, Twitter etc or any other public forum.

If you have any queries about Video Group Consultations, please see ask your facilitator Luciana, email: vgc.1th@nhs.net or SMS to 07704560397 to be recalled.
